BIG NEWS!

 Cart is empty

Since the time that I had started on this journey to enable people to easily record important events and experiences of their lives for the benefit of their loved ones, I have now talked to thousands. Many have heard this call to action and rose to the challenge and found it to be 'one of the best things they have ever done.'

I am very happy to announce a tremendous leap forward. [American StoryKeepers](#) and [Visiting Angels](#) will soon be working together to train hundreds of their Care-Givers to become StoryKeepers.

Privacy statement
Terms & Conditions

This national effort will establish StoryKeepers in nearly 300 communities coast to coast, initially providing this service to their existing clients and soon to their communities at large.

Visiting Angels recognizes the meaningful value that this service can provide their clients and their clients' families.

In the coming weeks we will be very busy rolling out this comprehensive training program.

I encourage anyone who would like to participate in one of the most important and meaningful activities ever, to contact [American StoryKeepers](#) or ask their

local [Visiting Angels](#) provider.

For all those communities that do not presently have a local Visiting Angels franchise, contact either us (American StoryKeepers) or Visiting Angels to find out how to get a franchise going or to establish an American StoryKeepers Outpost in your own neighborhood.

How big is this opportunity? There are over 50 Million members of the “Silent Generation” and over 70 Million “Baby-Boomers” right behind them, 95% of them will never be offered the opportunity to tell their story, to be remembered, and to be recognized for the achievements they have had. They, rather we, all deserve better than that.

With all that's going on, I almost forgot to mention that we, American StoryKeepers, have a new web-site and 800 number with live operators to assist you 24/7. Please call or stop by for a look-see.
